PROFESSIONAL SUMMARY

Flutter Developer with 5+ years of experience building scalable, high-performance mobile applications for Android and iOS platforms. Holder of a Master of Computer Applications (MCA) in Information Technology, combining strong academic foundations with real-world product development. Specialises in clean, production-ready applications using Flutter & Dart, with a focus on performance, architecture, and user experience. Additionally designs and implements backend workflow automation using n8n, creating powerful integrations between apps, APIs, payment gateways, CRMs, and third-party services.

TECHNICAL SKILLS

Mobile Development: Flutter • Dart • iOS (Swift) • Android

State Management: GetX • Riverpod • Provider • setState

Backend & APIs: REST API • Webhooks • Firebase • Crashlytics

Automation: n8n Workflow Automation • API Integrations • CRM Integrations

Payments: Razorpay • Stripe

Tools & Platforms: GitHub • Play Store • App Store • Upwork • Freelancer

Languages: English (Professional) • Hindi (Professional) • Gujarati (Working)

PROFESSIONAL EXPERIENCE

Sr. Mobile Application Developer — Team Lead

Oct 2024 – Present

Griphhy • Surat, Gujarat

- Lead Flutter development for cross-platform mobile and web applications
- Manage and mentor a team of developers, conducting code reviews and technical guidance
- Handle project planning, daily stand-ups, and direct client communication
- Collaborate closely with UI/UX designers to deliver intuitive and scalable interfaces
- Enforce clean code standards and best practices for performance and maintainability

Mobile Application Developer

Oct 2023 – Sep 2024

Griphhy • Surat, Gujarat

- Built robust mobile and web applications using Flutter with focus on performance and scalability
- Contributed to project planning, UI/UX discussions, and mentoring junior developers
- Ensured project alignment with business goals in a collaborative team environment

Mobile Application Developer

Apr 2021 – Sep 2023

White Orange Software • Surat, Gujarat

- Worked on both native iOS and hybrid Flutter projects from end-to-end
- Led development teams, overseeing project execution and guiding junior developers
- Mentored trainees in mobile development best practices and architecture patterns

iOS Developer (Internship)

Oct 2020 – Mar 2021

White Orange Software • Surat, Gujarat

- Gained hands-on experience in iOS app development using Swift

- Contributed to full development lifecycle: design, implementation, testing, and App Store deployment
- Developed strong understanding of UI/UX principles for mobile platforms

KEY PROJECTS

Samaj App (Apna Samaj – My Community) — Flutter | Android & iOS

Community platform for the Ghanchi Modi Samaj with verified member registration, digital family trees, business directory, matrimonial section, trust/temple listings, and a privacy-first architecture. Admins approve registrations and manage community data.

Terapanth App — Flutter | Android & iOS

Spiritual mobile app for the Terapanth Jain community featuring daily Panchang with home widget, Jaap auto-counter, Upwas/Tapasya tracking, Mangal Path audio, time-based Guruvandana notifications, and a books & articles library.

Shree Search — Flutter | Android & iOS

Service-booking platform connecting users with professionals (e.g. CAs). Features include Razorpay payment integration, document upload, real-time Firebase notifications, and seamless provider communication.

Loyalty App — Flutter | Tablet Devices

Three-tier loyalty platform for users, vendors, and admins. Users earn/redeem loyalty points at retail outlets; vendors manage redemptions and transaction history; admins control the entire programme via dashboard.

AV Social — Flutter | Social Networking

Feature-rich social app with dynamic feed (posts, polls, images), event calendar, real-time chat, stock market tracking, news section, and a customisable bottom navigation bar.

Lighthouse Canton — Flutter | Wealth Management

Wealth management app with integrated chatbox, task manager, out-of-office notifications, KYC verification, call & meeting notes, and client-facing social feed.

Autotech Distributor — Flutter | Android & iOS

Distributor app for car mattresses with product catalogue, real-time order tracking, custom seat cover designer, push notifications, Crashlytics, and Firebase Analytics for data-driven improvements.

Muvr: Get Furniture Delivery — Flutter

Moving and delivery platform with transparent pricing, real-time tracking, flexible scheduling, and support for diverse move types and marketplace integrations.

Bunatetu — Flutter | Cafe Ordering

Café app with seamless mobile ordering, Razorpay payment integration, a virtual-cups reward system for free coffee redemption, real-time notifications, and car-door delivery functionality.

EDUCATION

Master of Computer Applications (MCA)

2019 – 2021

Sarvajanik College of Engineering & Technology • Surat

Advanced coursework in Laravel, Advanced Java, database algorithms, agile methodologies, data structures, and system design.

Bachelor of Computer Application (BCA)

2016 – 2019

Uka Tarsadia University • Bardoli

Proficiency in Java, Python, C, C++, SQL, HTML/CSS, JavaScript, Bootstrap, and React. Strong foundation in software engineering, networking, OS, and data structures.
